Biography:

Mr. Charles V. Zeeger is currently the Associate Director of Engineering and Planning for the University of North Carolina's Highway Safety Research Center (HSRC), where he has worked from 1986 to present. He is currently the Director of the Pedestrian and Bicycle Information Center (PBIC), which is the national clearinghouse of information on bicycling and walking. In recent years, Mr. Zeeger has been principal investigator and primary report author on numerous federal studies and Guides, including the FHWA Guide on "How to Develop a Pedestrian Safety Action Plan" and the NCHRP report entitled "A Guide for Reducing Collisions Involving Pedestrians." He has taught courses on pedestrian and roadway safety throughout the U.S. over the past 25 years. Mr. Zeeger is a registered Professional Engineer and an Emeritus Member of the TRB Pedestrian Committee. He received his B. S. degree in Civil Engineering (Virginia Tech) in 1972, and an M. S. degree in Civil Engineering (Transportation) from the University of Kentucky in 1974.
